The Imperial MBA equips the world’s future business leaders with tools to develop solutions to emerging global business challenges through the integration of business and technology, leveraging our unique position at the heart of Imperial College London. Our MBA is highly analytical and data driven, with a focus on innovation.

The Full-Time Imperial MBA is an intensive one year programme that challenges our students to imagine, innovate and inspire. We provide them with the skills required to find innovative solutions and create impact in business and society. Studying in a highly international cohort, students are encouraged to adopt a global perspective.

Our small but diverse cohort of 67 students from 29 countries means that we get to know our students on their Personal Leadership Journey. The flexible programme structure offers a bespoke learning experience and allows students to tailor their experience in line with their career aspirations. Our students have an average of 6 years prior work experience, and are looking for MBA programmes or Experienced Hire opportunities. We also support approximately 400 part-time students on our Weekend, Global Online, and Executive MBA programmes, as well as working with a number of career-changing alumni.

For guidance on how to reach these candidates, or for more information, please contact our Employer Relations Team.

“I was hugely impressed by the Business School, including the strong social and international focus of the MBA...Working with so many different, bright, insightful people on a daily basis has been one of the most rewarding parts of the programme.”

Jonathan Short
