Evidence in action: how are our surveys used to help improve programmes?

Elizabeth Hollenberg
Programme Manager

Country Programme

Are programmes reaching the right people and achieving their target numbers?

Is the data generated of good quality?

What do alternative diagnostic tools show us?

What is the most appropriate medium to inform people of treatment?

How did you hear about the MDA?

Mapping

Training

Social mobilisation

Improving Health,
Unlocking Potential

Global Influence

Are we using the best treatment strategy?

How can we work together better with other sectors?

How can we ensure everyone receives treatment?

Policy and Strategy

What impact have other interventions/treatment strategies had on prevalence and intensity and can we adapt that for global schistosomiasis control?
